There's still time!

A NATIONAL SURVEY ON FARM-BASED CYBERSECURITY: LISTENING TO CANADIAN FARMERS

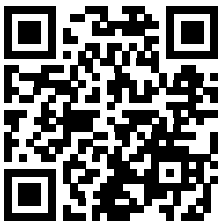

Please take a few minutes to complete this survey about your use of digital technology and cyber security in support of your farm operations. Your contribution will help improve cyber security across Canada's agricultural sector.

The *Cyber Security Capacity in Canadian Agriculture* project is funded by the Government of Canada and led by the Community Safety Knowledge Alliance.*

This project will help farm operators like you strengthen cyber security in order to reduce business and production-related risks.

Participation in this survey is voluntary. Information collected will be summarized and presented anonymously. The survey results will contribute to improving cyber security at your farm, in your sector and across Canadian agriculture.

The survey will be open until **25 February 2022**.

It should take about 15 minutes to complete this survey.

We appreciate your participation in this important study!
